He's a rugby player. He plays rugby for *The Newcastle Rebels* and he trains every day from Monday to Friday for the BIG game on Saturday. Sunday is his one free day, his day off! He doesn't do much on Sundays. He has a flat near the sports ground with Tony, another player from the team. Every summer he goes back to Australia for one month. One day he hopes to play rugby for his country.

3.3 'I live for my sport. I love it!'

'I live for my sport - I love it. We train hard every weekday, usually at the sports ground, but sometimes we go running or cycling in the countryside. We cycle for miles, often to the sea. I really love the beaches near Newcastle, they're beautiful, but I don't go swimming there – I never swim – the North Sea is too cold. It's freezing, summer and winter, not like in Australia! Tony goes swimming sometimes – but then he doesn't feel the cold ... he's from Newcastle! Saturday is the BIG day, Match Day! On Friday evening, Tony always cooks a huge meal for us, white rice or potatoes, with chicken and green vegetables, but of course we don't drink any alcohol! I love the excitement on Saturday – especially when we win! Sunday? ... Sunday, we don't do much, we're so tired. We just relax and watch TV – sport of course. My favourite is the skiing, 'Ski Sunday', and football, I'm a *Newcastle United* fan – of course. Oh, and I 'Skype' my mum and dad in Australia. I miss them a lot. They want me to play for Australia one day.'

- J Yeah, sorry about that – the sea's really cold here. And where do you live in Newcastle?

L Of course not! Tony always cooks a huge meal for us – he's a great cook. We have chicken, rice, vegetables ... stuff like that. No beer – that's for after the match.
J And do you relax on Sundays?
L Oh yes, it's our day off. We don't do much at all – just watch TV – sport of course.
J Just rugby? Or do you like any other sports?
L Not always rugby! I like watching skiing and football, too. I'm a Newcastle United fan now.
J Good for you! Last question Logan: do you miss your family in Perth?
L Of course – but I Skype them every Sunday evening. They love to hear my news, and I love to hear theirs. They want me to play rugby for Australia one day.

3.8 Dr Susan Hall – an expert on work–life balance

Of course, work or study is important for us all – it gives structure to our everyday lives. But, for a happy, balanced life it's also important to 'play' sometimes. It's important to find time to relax with friends and family. It's not good to think about work all the time. I know from my work as a doctor that it's sometimes difficult not to take your work problems home – but if you take your problems home, you never relax and it's difficult for your family and bad for your health. Don't live to work, work to live! Life is more than work. How many people do you know who really love their work? How many people just work for the money? You know what they say, 'If you love your job, you never have to work again!' I think that's true.

The living room has one big window. It faces south, so it's always very sunny. I have two comfortable, old armchairs, but I don't have a sofa because the room is quite small.

There isn't a garden but there's a small balcony. I want to put a chair there, so I can sit in the sun on summer evenings.

5.11 The Kanneh-Masons

Is this the most talented family in Britain? This was the question asked by the TV and music producer, Simon Cowell, when six of the seven brothers and sisters were on the TV show 'Britain's Got Talent' in 2015. The children are often called 'prodigies', but their mother doesn't like this. She knows they are talented musicians, but says that they are successful because they work very hard.

In 2016, **Sheku**, one of the two brothers and a brilliant cellist, was the *BBC Young Musician of the Year*. He was just 17 years old. His sister **Isata**, 19, was also a finalist in the BBC competition in 2014. She is a pianist and a violinist. But, amazingly, they are not the only talented musicians in the family. Their brother **Braimah**, 18, and sisters, **Konya**, 15, **Jeneba**, 13, **Aminata**, 10, and little **Mariatu**, 6, can

all play musical instruments really well.

Isata and Braimah are full-time students at the Royal Academy of Music in London. Isata has a scholarship from the singer/songwriter **Elton John**. She plays the piano, violin, and viola. Braimah plays the violin. Next is Sheku. He could play the cello when he was six and now attends the junior school of the Royal Academy. He gets up at 4.30 a.m. every Saturday and goes by train to London. His sisters go with him.

The family live in Nottingham, England. Mother, **Kadie**, is from Sierra Leone, West Africa, and the father, **Stuart**, comes from Antigua, in the Caribbean. They are both very musical – Stuart plays the cello and Kadie the clarinet, so you could always hear some music in their home. But they say that their children's amazing musical talent is still a shock to them and they now have an orchestra in their house. Isata, the eldest, was the first to start playing (the piano), and so when the others were born it was normal to hear music in their house. Their home has four pianos, three cellos, four violins, and a viola, and the children practise for two hours a day, sometimes more.

The family aren't rich. Money is always a worry. Instruments are very expensive – one cello string costs £80! Their car is very old and they never buy new clothes or go on holiday. But the parents are very proud of their children. Their father, Stuart, says, 'A lot of teenage boys, especially, feel it isn't 'cool' to play an instrument.' He's really pleased that his children don't think that.

6 Lessons in life

6.1 A museum today

Madame Tussauds waxworks museum is one of London's most popular tourist attractions. You often see long queues of people waiting to visit their favourite lifelike stars, from Star Wars' characters and the US President, to Prince William and Kate. It is amazing that in our technologically advanced world, people still want to touch and stand next to models made of wax.

It takes four months to make a model and costs about £150,000. There are Madame Tussauds museums all over the world, from Hollywood to Beijing.

So, where and when was the museum born? And who was Madame Tussaud?

6.2 Who was Madame Tussaud?

Marie Tussaud was born in 1761 in Strasburg. Her father, a soldier, died before she was born. When Marie was still very young, her mother moved to Switzerland, where she worked as a housekeeper for a doctor called Philippe Curtius. Marie and her mother lived with the doctor. He could make brilliant

wax models. Marie loved these and wanted to learn how to make them. In 1766, Curtius moved to Paris. A year later, Marie and her mother joined him. Marie showed real talent for wax modelling and during the 1780s she worked on them with Curtius. In 1802, Marie moved to England with the waxworks and her son, Joseph. François stayed in France with the other son. Marie couldn't speak a word of English, but she worked hard, and she started touring the country with her models. She visited over 70 towns in 33 years! The English were fascinated by the wax masks of dead French aristocrats.

In 1835, she opened her first museum in Baker Street, London and she worked there until 1842. She died in London on 16 April, 1850 – she was 88. In

- D** Well, of course the best bit was when you came into the world.
- L** That goes without saying, but what about the rest?
- D** Let's see the card – oh, I remember the foot and mouth crisis – that was terrible, the poor farmers. It went on and on – your mum and I couldn't go walking in the countryside and I couldn't play golf, the club was closed, and you know how I love my golf.

B = businessman **F** = fisherman **C** = fisherman's children

- B** Good morning. What beautiful tuna! How long did it take to catch them?
- F** Oh, about two hours.

- B** But what do you do with the rest of your day?
- F** I have a long lunch, play with my children, watch football, and take a siesta with my wife.
 Sometimes in the evenings I walk to the village to see my friends, play the guitar, and sing some songs.
- B** Really? That's all you do? Look, I am a very successful businessman. I went to Harvard University and I studied business. I can help you. Fish for four hours every day and sell the extra fish you catch.
- F** But ...
- B** ... then, you can buy a bigger boat, catch more and earn more money.
- F** But ...
- B** ... then buy a second boat, a third, and so on, until you have a big fleet of fishing boats.
- F** But ...
- B** ... and you can export the fish and leave this village and move to Mexico City, or LA, or New York, and start a fishing business.
- F** OK, OK, but how long will all this take?

- B** Er – let me think – er probably about 15 to 20 years.
- F** 15 to 20 years! And then what, señor?
- B** Why, that's the best part. You can sell your business and become very rich, a millionaire.
- F** A millionaire? Really? But what do I do with all the money?
- B** Well, let me think. Er – I know, you can stop work and – er move to a lovely, old fishing village where you can have long lunches, play with your grandchildren, watch football, take a siesta with your wife, and walk to the village in the evenings where you can play the guitar and sing with your friends all you want.
- F** Mmm – well ...
- C** Papa, Papa, did you catch many fish?
- F** I caught enough for us today and tomorrow and also some for this gentleman. Please, señor, have some of my beautiful fish. Goodbye, señor. Come on children, let's go home to Mama.

Obviously, I was very frightened. Fortunately, the police came quickly. They opened the front door and went into the living room. Then they came upstairs to see me. 'It's all right now, sir', they explained calmly. 'We turned off the television for you.'

8.9 The History of ice cream

'Who invented ice cream?'

There is no sure answer to this question. Perhaps it was the Chinese in 200 BC – they used ice to freeze rice with milk. Perhaps it was Alexander the Great, or the Roman Emperor Nero AD 37–68 – they both liked snow flavoured with fruit and honey.

The 13th century. China > Italy.

In 1269, Marco Polo travelled to East Asia. He returned home 24 years later with many 'Marvels of the World', including a recipe for ice cream from China. So, the Italians became the first people in Europe to enjoy this luxury.

The 16th–17th century. Italy > France > England.

Italian noblewoman, Catherine de Medici, was a great fan of ice cream. In 1533, she married Henri II of France and introduced him to the delicious dessert. Later, Charles I of England became an ice cream fan when his French chef made it for a royal banquet. He called it 'cream ice' and paid his chef £500 to keep the recipe secret. However, in 1665 it appeared in an English cookery book by Lady Anne Fanshaw. She called it 'Icy cream'.

For many years, ice cream was a luxury, enjoyed only by royalty and the rich. It wasn't until 1686 that ice cream first appeared on a restaurant menu. A Sicilian, Procopio dei Coltelli, opened the Café Procope in Paris and introduced Italian Gelato. It was made of milk, cream, butter and eggs – more like the ice cream we know today.

18th – 21st century. America and the world.

We don't know exactly when ice cream arrived in America, but it was probably with European settlers in the early 1700s. We do know that the first advertisement appeared in the *New York Gazette* in 1777, and the first ice cream parlour opened in New York City in 1790. We also know that the first ice

cream factory opened in Baltimore in 1851, but grocery shops didn't start selling it until the 1930s.

The popularity of ice cream grew and grew. In 1946, the Americans celebrated victory in World War II with ice cream, and in 1984, US President Ronald Reagan made July 'National Ice Cream Month'.

8.10 Ice cream – some amazing facts

- 1 The most popular ice cream flavour is vanilla, followed by chocolate and strawberry.
- 2 Some of the most unusual flavours are toothpaste, fish & chips, garlic, and pizza.
- 3 President George Washington once spent \$200 on ice cream (about \$3,000 today!).
- 4 NASA says that ice cream is one of the things most missed by astronauts in space.
- 5 In the early days of TV, mashed potato was used in cooking shows because ice cream melted under the lights.
- 6 The busiest day for selling ice cream is Sunday.
- 7 Americans eat on average 27 litres of ice cream a year, but New Zealanders love it more. They eat 28 litres.
- 8 The US ice cream industry makes \$21 billion a year.

8.11 A meal to remember

1 John

For me it has to be this. I was with my girlfriend in France, in Nimes in the south. We were students, studying the language, and, of course, we didn't have any money ... well ... very little money. We knew a cheap, but good, café near where we lived, but we could still only afford one meal between us. We ordered one small steak and some chips to share – we finished it in minutes. The man at the next table had a mountain of mussels and some bread and wine. He looked at us and smiled, then he said – er – in French, of course, 'I'm not so hungry this evening – would you like some of these?' And he gave us a big bowl of his mussels.

Student's Book Audioscript

The café owner saw this and smiled, and then he came over to our table with two bottles of really good white wine and four glasses. And so we all – the café patron, the kind man, my girlfriend and I, sat down together and enjoyed delicious food and drink, excellent conversation and a lot of laughs. It was a great evening and a meal to remember for the rest of my life!

2 Alison

This – er – is a very memorable meal for me, from many years ago. My husband and I were living and working in East Africa, on the coast – er, in a town called Tanga in Tanzania. Er – Tanga's a port, so lots of boats came there from all over the world – and – some from North Africa – and – er, we often had Arab dhows there, selling rugs. We bought one, a really beautiful one – and we still have it. Anyway, because of this, we were invited to a meal on board one of the dhows. We were really excited. What an experience! We took our ten-month-old daughter with us and sailed out to the dhow. We could smell the most fabulous smell as we got near to it. The men welcomed us warmly and helped us aboard with the baby. And there, in the middle of the deck, was one huge bowl of the most delicious chicken curry, er – it looked and smelt fantastic! Then, ... all the men, and my husband, sat down on the deck round the bowl and started eating, just with their hands, taking out large pieces of chicken. Unfortunately, according to custom, because I was a woman, I couldn't eat with them. I just held the baby and watched. Finally, they finished and it was my turn – the only problem was that there was no chicken left in the curry! Just some sauce! That didn't please me at all and – er – it's why I will always remember that meal!

9.3 Which do you prefer?

- A** Which do you prefer, London or New York?
- B** Well, I'm American, so of course I love New York more.
- A** I think London's more interesting. And it's a lot bigger than New York.
- B** True, New York is much smaller than London. But the buildings are so much taller, and for me, that's more exciting!
- A** Mmm. I guess the weather's better in New York.
- B** Well, people think so, but it's worse than London for rain!
- A** Really?!

9.4 I think it's taller

I think the Freedom Tower is taller than the Shard, but I think the Shard is more beautiful.

I think the Underground is more expensive than the Subway, and the trains are more crowded.

There are more parks in London, and they are bigger – and nicer, I think.

I think the weather in New York is hotter in summer and colder in winter. It's also wetter, but I think New York is sunnier.

I think the people in New York are friendlier, but I think Londoners are more polite.

9.5 Larry – an American living and working in London

Well, I like both New York and London, but they're good for different things. New York is easier to walk around, because it's smaller. The Underground is better than the Subway – it's much nicer ... but it is more expensive. Of course, there are a lot of older buildings here, so it's kind of more interesting. And I really love the parks here. My favourite is Regent's Park, but there are so many. I read that nearly half of London is green – that's amazing! I like it here in summer – it's a lot hotter in New York, and it can get way too hot there. Winters are warmer here in London, but they're so grey! In New York winters are colder, and snowier, but sunnier! As for the people, well, generally Americans are friendlier to strangers than the British. Life is faster in New York, though, and Londoners are probably more polite.

11.8 What's the weather going to be like?

P = presenter C = Carol

- P And here's Carol with the weather forecast for Europe.
- C Thanks, Andrew. Well, at the moment there's some wet and windy weather over the UK and Scandinavia, and this is going to move to the east over Poland and Germany. Temperatures in Berlin and Warsaw are about 21° Celsius right now, but it's cooler in London, more like 18°, and cooler still in Oslo – around 17° there. Further east, it's cool and cloudy in Moscow, where the temperature is a welcome 15° after all the extreme summer heat there. To the south it's a bit

warmer, 23° in Budapest, and even warmer as we get further south, so 26° in Rome, but it's going to be cloudy and showery across the north of Italy before long, so temperatures aren't going to stay as high there. In northern Turkey, there's some heavy rain, and it's already getting stormy, so temperatures won't get much higher than 21° in Istanbul. France is going to be cool and cloudy in the north, 20° in Paris, but much warmer and sunnier in the south, with a high of 27° in Nice. The rest of the Mediterranean is going to be warm and dry, too. Portugal and Spain will see plenty of late summer sunshine, with temperatures as high as 29° in Madrid and Lisbon. It's going to be warmer still in Greece, and we're probably going to reach 30° in Athens. And that's your European weather for the next 24 hours. I'll be back at lunchtime with an update.

P Thanks, Carol. And now ...

12.14 A poem – Why did you leave?

When did you leave?

I left at four in the morning.

When did you leave?

When the house was asleep.

Where have you gone?

To a huge, crowded city.

Where have you gone?

To a place where no one knows me.

What did you take?

Some money. Not my mobile phone.

What did you take?

Not much. Just memories.

How did you travel?

By taxi. By plane.

How did you travel?

I travelled alone. I have always travelled alone.

Why did you leave?

Because I wanted to see the world.

Why did you leave?

Because nobody listened. No one has ever listened to me.

Student's Book Audioscript

Why don't they listen?

I don't know. I have never known.

Why don't they listen?

Because I have very little to say.

When are you coming home?

When I have become somebody.

Do not wait.
